George Stevenson, fourteen years of age, who is living with Sam May, the liveyman in Forest City, came very near losing his eyesight, last Sunday, through the cruel meanness of some boys about his own age. He was passing along the street, when he was pulled by a hole they had in the ground; as he did so, they threw a live coal into the hole, which they had previously filled with powder, the explosion severely burning his face and eyes. It is believed, however, that the sight is not injured. Boys that will do such tricks as this, deserve and should receive severe punishment.

Go to the King & Prouds' for all school supplies—the most complete stock ever shown in the city.

De R. King brought us in a basket of tomatoes last week that "kicked the peckishness." They were raised by Mrs. King in her garden. There were thirteen of them—thirteen weighing thirteen pounds. They were raised from seed furnished by Peter B. Henderson, the seedman, who offers a premium for a name for them. We would suggest "King's Mammoth Beauty."

Remember J. W. Keider's big sale of stock, farming implements and grain on his farm, six miles northeast of Oregon, and two miles southeast of New Point, Tuesday, Sept. 22, 1891. His stock, farming implements, etc. Laid out on the ground. See bills and "ad" for particulars.

Under date of Sept. 12th, Levi Chubbuck, secretary of the State Board of Agriculture, writes to Stephen Blanchard as follows: "If your people want the Farmers' Institute, and will make an effort to have an attendance which will justify the expenditure for a meeting, and let us know in a few weeks, before the executive committee meet to arrange the route, you may count on a meeting. What do the farmers say?"

NOTICE To TAX-PAYERS!

Notice is hereby given to the taxpayers of Holt county, Missouri, that the tax books for the year 1891 are now in my hands ready for collection. GEORGE H. ALLEN, COLLECTOR, HOLT CO., MO.

A herd of 100 Oregon horses was one of the attractions on our streets, last Monday.

Under the law the Postmaster general has the power to fix the fee on registered letters. The present fee is ten cents. With a view of ascertaining whether it can safely be reduced, Postmaster general Wamamier has written every postmaster in the country asking him to forward a statement showing the number of letters registered at each office during the year. When this information has been collected, and tabulated it will serve as a basis for figuring on a reduction.

The evening factory is running at full capacity, turning out from ten to twelve thousand cents of tomatoes and corn per day. J. R. Leville, the efficient and competent manager, returned Monday from Atlantic, Iowa, where he secured the services of two experienced experts. There will be no delay in this part of the business now, as these two gentlemen can cap with ease 7,000 cans per day, which with the two men now on hand will enable them to turn out from 12,000 to 15,000 cans per day. The goods being turned out are pronounced by good judges to be equal to the best brands now on the market, if not superior.

The Mound City Harvest Home will be held this week, Wednesday and Thursday, Sept. 23rd and 24th. Thursday will be the big day, however. Hon. J. J. Ingalls has been secured and will address the people on Thursday, Sept. 24th, and at night will deliver his famous lecture, "Gladfield." The Mound City Harvest Home will be a success. Reserved seats, 25 cents. Tickets can be procured of G. W. Meyer & Co., Mound City. The program is the best, all through, ever presented by the association, and the premiums exceedingly liberal. All products and stock sold "be entered on Wednesday, as none will be received or entered after 9 o'clock a. m. Thursday.

B. BOND,

CRAIG, HOLT COUNTY, MO.

Born, to Frank Evans and wife, of St. Joseph, Mo., Saturday evening, Sept. 12th, 1891, a girl.

The editor of the Independence (Kansas) Star sued a delinquent subscriber for eleven dollars. The delinquent claimed that he never subscribed for the paper and did not propose to pay. The judge instructed the jury that if the evidence disclosed the fact that the delinquent had taken the paper from the office, or caused it to be taken, they should find in favor of the plaintiff. It cost the man nearly a hundred dollars to settle what eleven dollars would have paid. It pays to be honest even with a printer.

In passing along the walks of town one cannot help contrasting the solid, substantial work done at some crossings, with the flimsy, loose unsatisfactory work at other crossings and walks. We must compliment David Foster on his work on one crossing over the walks or crossings made by him there is no giving way—it is solid as the earth, and will last 'til the materials are worn away. This can be said of all the new walks. Every step on some of them causes a springing and reacting that will soon displace parts of them. This would seem to suggest that some one on the part of the city should be authorized to inspect and receive all work of this kind.

Farmers and all consumers must realize the fact that in buying bacon in this country they must pay freight both ways. Freight must be paid on the live stock to the packing house, and on the dressed meat from the packing house back to the consumer. If farmers would organize and establish a local packing house in each county or in districts of two or three counties each, it would be a big thing in the home consumption market and would give them a better price for their bacon, because the farmer's better price for his live stock at home. This would beat all the sub-treasury schemes that could be invented during the next decade. A packing house right here in Oregon would do a good, profitable business we believe.

ROYAL BAKING POWDER Absolutely Pure.

A recipe of tartar baking powder, analyzed and found to be pure. U. S. Government Report.

PAINTLESS CHILDHOOD

THE BOYS AND GIRLS OF OREGON are now at the height of one of the grandest prizes of life, an education. It is the rapid by which they can cut their way in the world in youth; the staff with which they shall walk in age. In the methods and instrumentalities of education the progress has been great, and the children now are fortunate indeed in comparison with their fathers and mothers. With the present facilities for securing an education, superior teachers, boys, charts, libraries, well ventilated rooms, comfortable seats, the school room is not a prison but a home, no one should grow up among us in illiteracy.
